B. Information on the offered financial services

The financial institution provides asset management and trustee services to its clients.

The financial institution does not provide financial services in collective investment schemes.

The financial institution does not guarantee any yield nor performance of investment activities. The investment activity can therefore lead to an appreciation in value and to a depreciation in value.

The financial institution has the necessary licenses to perform the above services.

C. Client segmentation

Financial service providers are required to classify their customers into a client segmentation as legally established. The Financial Services Act provides for «retail customers», «professional customers» and «institutional customers» segments. The financial institution classifies all clients as "retail customers", which means that clients have the highest level of client protection.

D. Information on risks and costs

General risks associated with financial instruments transactions

The asset management services involve financial risks. The financial institution shall provide all clients with the «Risks associated with Financial Instruments Transactions» brochure prior to the execution of the contract. This brochure can also be found at www.swissbanking.org or at www.beerlipartner.ch.

Clients of the financial institution may contact their client advisor at any time if they have any further questions.

Risks associated with the offered services

For a description of the various risks that may arise from the investment strategy for clients' assets, please refer to the relevant asset management agreements.

Information on costs

A fee is charged for the services rendered, which is usually calculated on the assets under management and/or on a performance basis. For more detailed information, please refer to the relevant asset management agreements.

E. Information about relationships with third parties

In connection with the financial services offered by the financial institution, economic ties may exist with third parties. The acceptance of payments from third parties and their treatment shall be regulated in detail and comprehensively in the respective asset management agreements.

F. Information on the market offer considered

The financial institution basically follows an «open universe approach» and tries to make the best possible choice for the client when selecting financial instruments.
